**assets disappear!**

## Bankruptcy & Litigation Support Services

Often times in bankruptcy there is little time to put effective loss prevention measures in place. Through our proprietary network of security providers, we can dispatch investigative and security personnel to any location that may be vulnerable prior to or after the bankruptcy filing becomes known.

Security Resources will protect physical assets from employee pilferage, internal and external threats, labor disputes, acts of sabotage or worse. With one phone call, this can be accomplished even if the assets are scattered across the country.

### On Demand Asset Protection

- Uniformed Security Personnel
- Undercover Investigators
- Executive Protection

### On Demand Investigators

- Surveillance
- Interviewing
- Criminal Background Checking
